dAIEDGE

A network of excellence for distributed, trustworthy, efficient and scalable AI at the Edge

Welcome to the seventh dAIEDGE newsletter!

daiedge.eu

Dear members of the dAIEDGE community,

Our seventh newsletter is here! We share with you our progress and achievements in positioning the EU as a global leader in the data economy and its applications.

What's in this new edition?
Discover the highlights from our successful 3rd Open Call, the latest news and updates, insights from our 4th General Assembly Meeting in Salamanca (Spain), upcoming events, and a major milestone in the second edition of the AI NoE Newsletter.

Keep scrolling and check out our progress!

We're thrilled!

Over 700 people took part in our 3rd Open Call!

The third and final open call for collaborative projects from dAIEDGE **marked another important milestone for the European edge AI community**.

The level of participation **once again exceeded our expectations**, demonstrating the growing maturity and engagement of innovators across Europe in the field of Edge AI

The results of our 3rd Open Call have far surpassed those of the previous two editions

While the *first call* registered 146 initiated applications, with 36 successfully submitted from 21 countries, the *second reached* 529 initiated applications, 236 submissions, and participation from 33 countries. **The third and most recent call has set a new benchmark with 704 applications initiated, 277 submitted, and applicants representing 39 countries.**

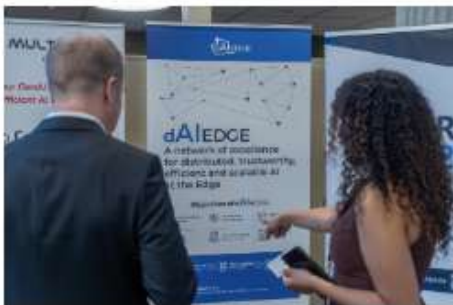

dAIEDGE 3rd Open Call for Collaborative Projects Results

Applicants from 39 countries

Started: 704
Submitted: 277

Applying as
• Single entities 235
• Consortia 36

Top applying countries:
• Spain (47)
• Greece (43)
• Italy (42)

SMEs 284
Academia 63
RTOs 23

Top challenge selected:
Challenge 8.
Health Monitoring AI for Edge Devices with Privacy-First

This steady growth reflects how at dAIEDGE we are strengthening a dynamic European ecosystem for innovation in edge AI

Discover our success!

ADR Forum

At dAIEDGE we had the privilege of taking part in the ADR Forum 2025, an event that brought together international experts to discuss the future of AI and its role in alternative dispute resolution.

We **showcased our progress**, established **new connections**, and **shared our goal** of positioning Europe as a leader in the data economy and its applications.

Alain Pagani, Director of DFKI's Augmented Vision Department and coordinator of dAIEDGE, joined the 'Science for AI' panel to discuss **the creation of the European RAISE** and **presented dAIEDGE**, highlighting the strategic role of edge AI in fostering collaboration and scientific excellence in Europe.

News & Updates

European Conference on EDGE AI Technologies and Applications (EEAI)

The EEAI has established itself as **one of the most important events** of the year in the field of decentralized and efficient artificial intelligence.

dAIEDGE had a prominent presence throughout the three days

Special thanks to our partners Alain Pagani, José Cano, Devendra Vyas, Baptiste Dupertuis, Lisa Trollo, Juan Daniel Muñoz, Carmelo Scribano and Maximilian Kasper who participated with their **excepcional presentations that sparked great interest among attendees**.

Burgos Industry 4.0

dAIEDGE collaborated with two of its partners, the *AIR Institute* and *Vicomtech*, to showcase project outcomes. One highlighted use case demonstrated how edge AI technology can transform real industrial processes.

Read more

Sido 2025

dAIEDGE actively participated in SIDO 2025, one of the leading events in technological and digital innovation

Our goal was clear: to continue connecting with new stakeholders (companies, researchers and professionals).

Successful 4th dAIEDGE General Assembly

During the meeting, all dAIEDGE partners gathered at Colegio Fonseca in Salamanca, Spain, to **review the progress made** in each of the work packages **since our last meeting** in Sorbonne University, Paris, in March.

One of the most significant milestones presented was the successful acceptance of the *dAIEDGE-VLab*, an open access, free virtual environment designed to compare and evaluate AI model performance, providing a collaborative space to test, benchmark, and advance edge AI solutions.

The 4th General Assembly strengthened our team bonds through engaging and impactful networking sessions

dAIEDGE promotes International Cooperation Day

The meeting gathered experts from around the world (University of Malaysia, Arab Academy for Science, Technology and Maritime Transport, University of Salamanca) to strengthen international cooperation by building new partnerships, and share knowledge para el desarrollo technologies like blockchain, AI, and cybersecurity, aiming.

Alain Pagani presented the project and its objectives to all participants.

Next, Micaela Verucchi (Hipert) showed our smart city use cases, demonstrating how the solutions developed improve efficiency, resource management and safety in urban and business environments.

The day concluded with a round table discussion involving Micaela, Pavel Rotberg (Fraunhofer) and Óscar Déniz (University of Castilla-La Mancha), together with experts from Malaysia and Saudi Arabia which emphasised

Upcoming Events and Activities

Smart City Expo World Congress

From 4 to 6 November 2025, our partner HiPERT will be in L'Hospitalet de Llobregat (Barcelona) to present our UseCase to the public: **Smart Cities**

This will be a key moment to show how we drive innovation in Europe through distributed and Edge AI, applied to one of the most transformative areas of the urban future.

Register now

Transfiere

Transfiere promotes the circulation of knowledge and its direct application in the productive fabric, creating a space where research potential, entrepreneurial initiative and institutional commitment converge.

And at dAIEDGE, we will be part of the next edition!

We will be at the **Research Centre**, where you can come and meet us and find out how we work to make the European Union a leader in data economy and its applications.

AI NoE Network

The AI NoE Newsletter soars past 2,500 subscribers!

For the second time, thousands of followers have received by mail the latest news and exclusive content about the ten projects that form part of this European network of excellence in artificial intelligence: AI4Media, ELISE, HumanE-AI-Net, TAILOR, VISION, ELIAS, ELSA, ENFIELD, euROBIN, and dAIEDGE.

With this second edition, we are consolidating a communication channel that connects, informs and inspires a community of more than 2,500 people interested in the advancement of AI in Europe.
