

AI NoE Newsletter

After picking up the baton from Vision4AI, the 'new NoEs' share with you **our first newsletter edition** of the 'European Networks of Centres of Excellence in AI, Data and Robotics (NoEs)'.

From dAIEDGE, Elias, Elsa, Horizon Enfield and euROBIN we want to send a message of thanks to Four ICT-48 NoEs for all the legacy of innovation and excellence they have left us.

Our first edition will feature promotional videos of the progress made, new opportunities for development and collaboration and the upcoming events in which the new NoEs will participate.

Opportunities

Elias Open calls

ELIAS is looking for projects based on AI applications that engage with the network in the categories “Methodology”, “Software/Tools”, “Benchmarks” relevant but not limited to the use cases of ELIAS in the scope of AI for Sustainability.

ELIAS is focused on 3 research spheres but applications are not limited to them as long as the proposals will address high-impact societal and economic challenges using machine learning.

Up to €60,000 in funding for AI solutions in Sustainability & Societal Impact

- ✓ Develop AI/ML applications
- ✓ Gain visibility & network with top AI researchers
- ✓ One-time payment upon result publication

Who can apply?
SMEs | Startups | NGOs working on:
• AI Methodology | • Software/Tools | • Benchmarks

Key Dates:
Q&A Session: March 26, 2025 – 10 AM (CET)
Application Deadline: April 30, 2025

Travel the world with ELSA: our Mobility Fund in Action

At ELSA, building a strong and sustainable network is one of their most important goals. To this end, they have created a mobility fund to connect people connected to ELSA in person.

Would you like to learn about its benefits in a realistic way? We spoke to PhD student and researcher Tejúmádé Áfọnjá, who works at ELSA.

PEPR IA launches call for professorships

[Read more](#)

As part of the French Strategy in AI, PEPR AI Chairs program offers exceptionally talented AI researchers the opportunity to establish and lead a research program and team for a duration of 4 years in France.

This action extends efforts launched in the first period under the Choose France program.

PEPR IA launches call for professorships

The recent redesign of the AloD platform provided the perfect opportunity to give the ecosystem mapping a vibrant new look as part of the AI Made in Europe brand!.

This refreshed mapping continues to offer valuable benefits, including an overview of the AI research and innovation ecosystem of Europe, the ability to search and find AI expertise by topic and application area, and increased visibility for organizations within the AI community.

AI Media Observatory - Call for content on AI & Disinformation

A poster for the AI Media Observatory. It features a dark blue background with a network of white dots and lines. The text is in white and yellow. The title 'Launch of our call for Content on AI & Disinformation' is in yellow. Below it, the text reads: 'The AI Media Observatory launches its first call for content. The Observatory seeks to receive relevant and recent research on AI & Disinformation including research results in an accessible format, case studies, reports, videos, events, factsheets,...'. There is a small image of a colorful, abstract, glowing shape on the right side of the poster.

News

Europe showcases dAIEDGE through CORDIS

We are pleased to share that the dAIEDGE project has been featured in a recent CORDIS article, highlighting our commitment to strengthen and support the development of Europe's dynamic distributed and cutting-edge artificial intelligence ecosystem.

[Read more](#)

The full article is available in six languages (English, German, Spanish, French, Italian, and Polish).

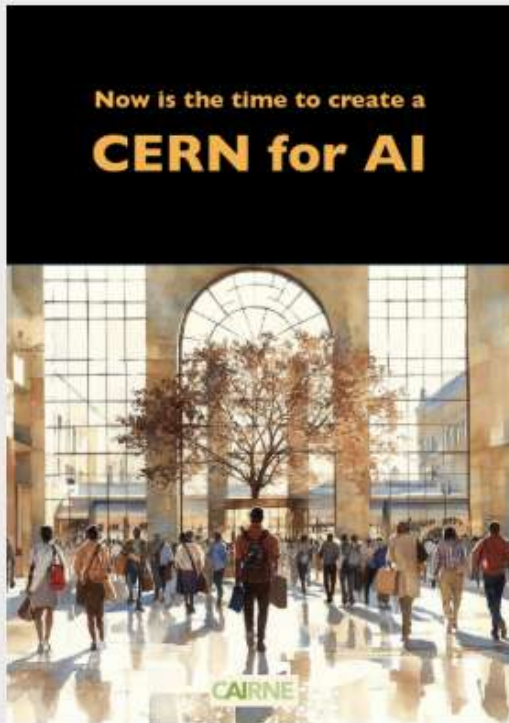

euROBIN SRA 2025

The euROBIN project continues to make progress and our euROBIN Strategic Research Agenda (SRA) is now ready.

CERN for AI

CAIRNE advocates a global AI research initiative modelled on CERN. In a [press release](#) issued on 19 February 2025, it welcomed the significant investments in AI and renewed its call for international collaboration to ensure ethical, transparent and accountable AI development.

Its open letter urges governments, academia, and industry leaders to establish a cross-border, non-commercial AI research hub.

dAIEDGE 2nd Open Call

They managed to receive 529 applications, 236 of which were accepted, attracting participants from 33 countries. In addition, 21 applications came from consortia formed by two entities, reinforcing cooperation in research and development of innovative solutions.

The winners will soon start their collaboration with the dAIEDGE team to transform their projects into reality.

Announcing the winners of ELSA 2nd Industry Call

[Read more](#)

ELSA announces the seven winners of its second industry call. The winners will be supported by the network and receive 60.000€ funding.

Congratulations to all the winners!

Recap of the “Privacy-Preserving Machine Learning” Workshop

From 17-21 March, researchers from Europe and abroad gathered in the beautiful village of Bertinoro for another exciting ELSA event.

During the five-day workshop, organised by our network members INRIA, the University of Helsinki and CISPA, ELSA members and external speakers came together to connect, share their research and learn from each other.

Promotional videos

dAIEDGE 3rd General Assembly

This meeting was a key opportunity to share knowledge and consolidate dAIEDGE's vision in the field of AI and Edge computing.

euROBIN Week 2024

Discover highlights of the event and demonstrations of the robots participating in the 1st euROBIN Coopetition.

Summers school

dAIEDGE Academy Summer School

Master the convergence between AI, IoT and Edge Computing in this summer school at Scuola Universitaria Superiore Sant'Anna (Italy).

Learn about cutting-edge technologies such as RISC-V with experts from the European dAIEDGE project and partners.

Open to students and professionals.

[Sign up](#)

CISPA ELLIS Summer School

[Sign up](#)

CISPA Ellis Summer School is accepting applications: ELSA is supporting this year's Summer School, organised by CISPA and Ellis in August.

The programme includes talks by leading researchers, workshops, poster sessions and networking, be sure to register before 30 June!

ENFIELD Summer School

This five-day program offers a comprehensive learning experience, combining expert-led lectures, hands-on workshops, and interactive challenges designed to enhance both theoretical understanding and practical skills.

Participants will engage with cutting-edge AI techniques, gain insights from leading researchers, and collaborate on real-world applications of AI across various domains.

[Sign up](#)

Upcoming events

Special Session at DCAI

TRUST-E focuses on advancing Artificial Intelligence at the edge by exploring theoretical, practical and interdisciplinary perspectives.

During our hybrid session, we will address key topics such as energy efficient architecture, frameworks for deploying AI at the edge, among others.

[Register now](#)

ELIAS, ELLIOT & ELSA Theme Development Workshop on Foundation Models

On 10 July 2025, from 9:00 to 14:15 (EEST), the Centre for Research and Technology Hellas (CERTH) in Thessaloniki, Greece.

This event is designed to address the most relevant technical challenges, consider legal and ethical aspects, and present examples of the application of foundational models.

[Register now](#)

AIDA Symposium and Summer School

will feature 14 top-tier keynote and invited lectures, and 26 excellent tutorials/short courses/special sessions covering the latest advancements in AI and Machine Learning, with distinguished speakers from leading universities in Europe and the USA.

Its various tracks are suitable for students, scientists, engineers, professionals from any scientific discipline and to AI enthusiasts.

[Register now](#)

ELSA Health privacy challenge

[Register now](#)

The ELSA network is launching the Health Privacy Challenge, a competition on computational biology and privacy in AI.

It will be held at the CAMDA conference, part of ISMB/ECCB 2025, on 23-24 July in Liverpool.

AI Data Robotics Forum 2025

ADRF25, the third edition ADRA Forum will be hosted in Stavanger, Norway . Immerse yourself in visionary keynotes, thought-provoking panels, and parallel sessions with industry leaders, researchers, and policymakers covering critical industrial and societal topics.

ADRF25 facilitates the convergence and synergies between stakeholder communities to move the European AI, Data and Robotics agenda forward.
